SIR

Subject - Byelaws for conservin and preventin injury to water-supply in wells in Mysore City

=====

I have the honor to state that the Health Officer reported that private parties are sinkin wells without permission and that these wells have no mosquito proof shutters and no steining in that this gives room for mosquito breedin and that the existing byelaws did not provide for taking out licences for construction of wells etc and therefore suggested that suitable byelaws may be framed in this matter The Municipal Advocate who was consulted stated that the sinking of a well without previous permission does not contravene any provision of either the Municipal Act or the Byelaws thereunder and suggested the framing of Byelaws under Section 142 of the Act to conserve and prevent injury to water-supply in wells

2 The question of framing byelaws was therefore referred to the Legal Committee who framed the necessary byelaws in their meeting held on 17-4-1942 and the Municipal Council in their Resolution No 834 dated 13-5-1942 approved of these draft byelaws with the modification that the provision the wells with mosquito proof shutter being dropped for the present on account of war conditions Although this is the very purpose on account of which the wells were proposed to be introduced not in view of war conditions also of the fact that the byelaws do not provided on the enforcement of other sanitary conditions the same was approved

and with this modification the Draft Bye-laws were published in the Bombay Gazette Part III-3 page 1019 dated 11-8-1942 as required by section 54 (2) of the City Municipalities Act giving one month's time for preferring objections to the draft bye-laws

As no objections were received within the period prescribed the Council therefore approved of the Bye-laws in their Resolution No 151 dated 8th August 1942 The extracts of the General Committee and Council proceedings are herewith enclosed for the information of Government

In clause III of the proposed Draft Bye-laws the Municipal Council have reserved the power to issue notice to owners or occupier to comply with these bye-laws and to extend the time limit in suitable cases As already stated above the object of framing these bye-laws is to regularise the construction of wells that have been found increased, in case notice to be issued has got to be Municipal Council in every instance it would be very difficult to enforce the byelaws framed by the Municipal Council The delegation of this power to the President is therefore necessary and this will be placed before the Council as soon as the Byelaws are approved

I have the honour to be

Sir,

Your most obedient servant
